

LAKE COUNTY 2050

Open House and Webinar Events

Lake County 2050, the update to the County's General Plan, is underway. Help us plan the future of our community!

This phase of engagement is focused on gathering your input on how to address key issues and how the county should physically grow and change in the years to come. In addition, you'll have the opportunity to weigh in on key housing issues to inform the countywide **Housing Action and Implementation Plan (HAIP)**. **Mark your calendar to take our survey launching August 5th to share your ideas.**

There are many ways to learn more...

- Join us at an upcoming **Open House** where you'll have opportunities to ask questions and share your ideas with members of the project team while you complete the survey. Can't make it in person? No problem...
- Tune in for a **live Webinar** where there will be a Q&A to address any questions you might have before taking the survey.
- Check out a **recorded Webinar presentation**, in English or Spanish, for background information and then take the survey at a time that works best for you.

Whether you attend an Open House, Webinar, watch the recorded presentation, or dive straight into the survey, your input is important to us.

Open House #1

Monday, August 5
6 - 8p.m.

County Board Chambers

255 N Forbes Street, First Floor
Lakeport, CA

English and Spanish

Open House #2
